## RAID ON BORDER AGAIN PROBABLE

Villa Followers Defeat Carranza Detachment.

CLOSE TO PERSHING'S LINE

Speculation in Washington on President Wilson's Next Step Was That No Note Would Be Sent in Direct Reply to General Carranza's Friendly Communication.

Washington, July 6.—The capital received with interest a report from El Paso that a large army of Villistas had cut a de facto force to pieces and might be marching toward the border.

The battle, according to unverified reports, was in the region recently evacuated by General Pershing and since occupied by Carranzistas.

The fight was considered mainly with respect to the effect it might have upon the diplomatic relations between the two countries, which suddenly have become distinctly friendly with the receipt of Carranza's conciliatory note.

Rumors that the rebel army made a new menace to the border were not taken seriously.

If the report of the battle is true it makes naught of Carranza's insistence that the north is fairly free of bandits.

Speculation on President Wilson's next step in the Mexican situation was that no note would be sent in direct reply, but that the president would welcome Carranza's invitation to a sober, friendly diplomatic solution of the difficulties.

The withdrawal of General Pershing, already unofficially under way, will be continued, it is understood, in the same quiet manner.

The dispatch of the national guardsmen to the border will go on and the border patrol will be placed on the firmest possible footing.

It is regarded as improbable that any plan for American pursuit of bandits, except possibly within limited areas, where a hot trail is followed and no Carranza troops are available, will be discussed in the new negotiations.

A plan for "border cantonnement," to which reference is made in the note, was proposed by General Obregon at his conference in El Paso with Major General Scott, chief of staff of the army, might be put into effect.

## CARRANZA FORCE TRAPPED

Suffer Heavy Losses in Fight With Villa Band.

Chihuahua, Mex., July 6.—General Ignacio Ramos was killed in a fierce and bloody battle at Corral ranch, fifteen miles southwest of Jimenez, between a small force of de facto troops and several regiments of Villistas.

Both sides suffered heavy losses. Rather than retire to Jimenez without carrying out his orders, which were not to return unless he was able to report success, General Ramos fought to the death in his entrenchments, cheering his men on to the last.

The Carranza troops were surrounded and for more than twelve hours held their position against repeated attacks.

## MEXICANS ARE LED BY RENEGADE AMERICAN

El Paso, Tex., July 6.—There is keen excitement here over the story of a renegade American soldier who led one of the companies of Mexicans in the butchery of his fellow countrymen at Carrizal.

The tale was told by Private William Given of the Tenth cavalry, one of the survivors of the fight.

The American in the Mexican uniform, according to Given, had served in the Twentieth infantry and was attached to the base at Columbus when the negro regiment was sent after Villa.

"I remember him because he was kicking at the service," Given said. "He said he'd never serve the United States again. And then I forgot all about him until we were being taken to Chihuahua by the men who captured us after the fight at Carrizal."

"There was an American wearing a Carranza uniform and apparently holding a captain's commission. His face was familiar, but I could not place him at first."

Kills Wife and Himself.

La Salle, Ill., July 6.—While his five children slept undisturbed in adjoining rooms John Walters shot and killed his wife and then shot himself, dying instantly.

Cleveland, July 6.—John D. Rockefeller, here to spend the summer, played golf with Dr. H. P. Biggar, his physician, and Mayor W. Minshall of East Cleveland. When questioned about the Mexican situation Rockefeller said: "I hope there won't be any war. War is bad and I hope it can be avoided."

## NAVY LEAGUE CALLS FOR GENERAL BOARD

Washington, July 6.—When the navy bill comes up in the senate another effort will be made to create a council of national defense for the purpose of coordinating the work of the navy and war departments so that in case of war there would be one force directing both the army and the navy. The need for such a council was pointed out by the Navy League of the United States.

"If war should break suddenly on the United States there would be no human being who would know what to do with the navy. The navy department has no plan of action. It has no established agency to develop such a plan. It would have to develop an organization and work out a plan after war broke out."

Such is the gist of the second of its statements issued under the query, "What's the matter with the navy?" "A certain faraway possession of the United States," continues the statement, "could not be defended because battleships would burn up all the coal they could carry reaching it."

## NO HOPE OF LOWER PRICES

Government Believes Cost of Meat Will Go Higher.

Washington, July 6.—High meat prices probably will continue indefinitely. This is the conclusion of the department of agriculture as set forth in an exhaustive report on the situation. High meat prices prevail throughout the world.

One reason for this is the fact that production has failed to keep pace with the increase in population. Other contributory causes given are the increased cost of production and diminished power of the money unit.

## ATTACK AMERICAN OFFICERS

Mexicans Threaten to Kill Naval Lieutenant.

San Diego, Cal., July 6.—Attacked by soldiers of the Carranza garrison at Santa Rosalia, Mex., backed up against the wall of the customs house and threatened with death unless he shouted "viva Mexico" Lieutenant F. H. Wright, executive officer of the protected cruiser Chattanooga only escaped being killed through the appeals made by one of the head officers of the garrison.

This account was brought here to Captain H. Anderson of the steamer Jim Butler and passengers on the vessel.

According to Captain Anderson, the incident happened Wednesday, June 28, when Lieutenant Wright landed.

Progressives to Have Ticket.

Fargo, N. D., July 6.—The Progressive party will put an entire state ticket in the field in North Dakota and a convention to make nominations will be held shortly. O. E. Engen, national committeeman, announced the plan. The date and place of convention will be determined in a few days.

## FRENCH NEARING RAILWAY CENTER

Offensive Lands Them on Outskirts of Peronne.

GERMANS ARE REINFORCED

British Meeting With Determined Opposition and Their Progress is Very Slow—Tentons Are Said to Be Preparing for Counter Attack.

Paris, July 6.—The French offensive brought new successes when the second German line on a front of two kilometers from the Chateau de Peronne to the River Somme were taken by assault. The vanguard has reached the outskirts of Peronne, the great railroad center of the Germans in France. The capture of all the German second line positions south of the Somme on a front of about ten kilometers also is reported.

French troops forced their way to complete occupation of the village of Estrees and 200 Germans surrendered there.

The German statement made but slight mention of the fighting on the west front and recorded that the British drive was at a standstill.

Meeting determined opposition in large forces of reserves brought up to reinforce the German lines the English are moving more slowly, but their progress is steady, London declares.

The hint of an important future development comes in a report from Holland that the Germans are preparing a counter offensive between the Belgian frontier and Arras. It is reported they are concentrating formidable artillery there.

Where French Are Active.

The full force of the French offensive is being exerted principally south of the Somme.

Sorment farm, taken by the French, is only two miles from Peronne and adjoins its suburban houses.

The importance which the Germans attach to this point is shown in their fierce counter attack when they rushed the French lines back to the village Belloy-en-Santerre, which they momentarily held.

This village lies between Assevillers and Estrees, both held by the French, so the German rush temporarily made a dent in the French advance. This dent was quickly straightened out when fierce hand to hand fighting placed the town again in French hands.

The number of German prisoners taken is now close to 10,000. Meantime the movement north of the Somme is necessarily retarded in order that the French left wing may act simultaneously with the British right wing.

The British have been facing an extremely heavy resistance and large German reinforcements were hurried forward by the Cologne-Cambrai railway, which runs to the very center of the German front attacked by the British.

## LEMBERG DEFENDERS LOSE RAILWAY LINE

Petrograd, July 6.—The Russians have cut the Delatyn-Gorostezko railway, the principal line of communication between the Austro-German forces defending Lemberg, and have routed the enemy on the right bank of the Dniester, according to an official statement issued by the war office.

## BOARD EXCEEDS ITS POWER

Increase of Fees in South Dakota Held Without Warrant.

Pierre, S. D., July 6.—The attorney general holds that the state board of health has no power to set aside a special statute by an order, regardless of its extensive powers for the regulation of health in the state. The law provides a fee of 50 cents a week for superintendents of county boards in making reports to the state board. The board at a recent meeting increased this to \$5 a month. This is held to be without warrant.

Montana Conditions Favorable.

Billings, Mont., July 6.—Fear that the agricultural season in Montana would be unfavorable has been dispelled by investigations conducted by the largest banking corporation in the state. While the earlier months were wet and cold there has been nothing untoward except the winter wheat killing, the effects of which developed in the early spring and which to a large degree were offset by the re-seeding of spring grains. Winter wheat is heading out and the first cutting of hay has been commenced.

## An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do. Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs. Those who wake up with bad breath, coated tongue, nasty taste or have a full, aching head, sallow complexion, void stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results, both in regard to health and appearance.

The remainder is to be distributed in smaller bequests to old friends.

No estimate of the total value of the estate is contained in the will.

The will, a document of nine typewritten pages, with sixteen items was filed by Colonel Green and Charles W. Pierson, an attorney of New York, in the office of Probate Judge Warner A. Graham after the funeral and burial of Mrs. Green here. The instrument is dated March 23, 1911.

## Olson-Slipp

Last evening at the home of the bride's parents, 510 N. Fourth Street occurred a very pretty wedding, when Miss Hilda Marie Slipp of this city and Walter William Olson of Walker were united in the holy bonds of matrimony. The beautiful Methodist Episcopal double ring service was used, Rev. F. W. Hill, pastor of the local church officiating. The sacred vows were taken amid the sweet melody of music.

The parlors were beautifully decorated with roses, sweet peas and peonies. Promptly at 8:30 o'clock, Dr. G. J. Badeaux of this city sang most impressively the appropriate solo, "A Song of Thanksgiving." Alliston, accompanied on the piano by Miss Edie Drexler, also of this city. The bride party entered the parlors to the strains of Mendelssohn's wedding march played by Miss Gladys Nitterauer of Brainerd. They were preceded by little Frankie Ernest King of Grand Rapids, who acted as ring bearer. The ceremony was performed before a beautiful bridal arch of ferns and sweet peas.

Miss Kathleen Slipp and William C. Slipp, a sister and brother of the bride, acted as bridesmaid and groomsmen. The bride wore a gown of white embroidered net, the bridesmaid being also attired in white net.

After the usual congratulations a delicious wedding luncheon was served. While refreshments were being partaken of, the customary broken string band of unknown origin most unharmoniously serenaded the young couple but after receiving a treat very decorously withdrew.

The groom is an exceedingly choice young man of true worth, one of the promising young bankers of Walker, and the son of Mr. and Mrs. N. W. Olson of that city. The bride is one of the popular young ladies of Brainerd, the daughter of Mr. and Mrs. F. J. Slipp, one of the prominent families of this city. She is highly respected and much beloved by all. Brainerd, this summer, is losing several of her most choice young ladies, and though we will miss them, our loss is some other city's gain.

The young couple left on a short wedding trip to the Twin Cities. Only immediate relatives and friends of the family were present at the wedding. Mrs. N. W. Olson of Walker, the mother of the groom, being the only out of town guest.

A bright future is depicted for these young folks and hearty congratulations and best wishes of many friends follow them to Walker where they will be at home after July 18th.

New Type of Frock—Skirts are not Scanty, but Falls Close to the Figure

Here and there emanating from this source and that appears a new type of frock. It is minus puffs or ruffles and very much without hoops of any sort. The skirts is not scanty but it falls close to the figure and altogether the gown has a very new and different look. An attractive exponent of this idea is made of delf blue linen with skirt banded with white braid in graduated widths. The bodice is very plain, cut on close but loosely fitting lines and it falls to a little below the waist. A little round vest of white organdie is set in at the top and there is attached to this one of those high, circular collars that flare out from the neck.

Prince Boris (Wm. Desmond) with a party of huzzars makes a raid down the Valley of Bothalia. In a monastery, he sees a nun that attracts him. He discovers that she is Countess Olga (Bessie Barriscale) whose portrait he has seen and admired. While Olga keeps Boris engaged in conversation her brother Michael returns with troops, who capture the huzzar. Boris spurs the woman when he discovers her trickery. Olga finds that Boris is condemned to be shot. She manages to throw him the key to his room. While they are searching the palace, Boris is concealed by Olga. Later Boris is discovered by Michael bidding farewell to Olga. There is a fight with swords, Michael is vanquished by a thrust through the shoulder. Boris escapes. After the war, the father and brother of Olga take her to a monastery, where she is to take the veil as a punishment for aiding in the escaping of Boris. With a royal permission for his marriage to Olga, Boris overcomes the opposition of her relatives and the ceremony takes place in the chapel, where she was to bid farewell to the world.

WILSON OPPOSES  
POLITICAL HERO

Not Likely to Name New Major Generals For Mexico.

IT WOULD AID HIS ENEMIES

Champ Clark Tells How Benton Attempted to Be Elected by Going to the Last Mexican War—Knew That Conflict Would Make a President, and in the End It Made Two.

By ARTHUR W. DUNN.

Washington, July 6.—[Special.]—It is doubtful whether President Wilson will take the step which will create political generals.

It is all very well to talk about Roosevelt raising a division, becoming a major general and going into the war in Mexico, but first he must be appointed a major general, and the appointment must come from Woodrow Wilson. Is it to be expected that the president would appoint Roosevelt in view of what the colonel has said about the manner in which the administration has been conducted? Not if he is the kind of man I think he is.

More than that, Wilson is not likely to make a man like Roosevelt a great big political war hero; not just at this time, when Roosevelt is doing everything possible to elect another man in Wilson's place.

## Tom Benton's Attempt.

This matter of political war heroes started Champ Clark going, and no man is better equipped than he to tell political reminiscences of a personal kind.

"Tom Benton tried to make himself president by becoming the war hero of the last war with Mexico," said the speaker. "He tried to have a bill passed making the senior colonel in the army a lieutenant general, which would have given him command in Mexico, as he was then the senior colonel, although a senator. His opponents were able to defeat his bill by three votes. Polk would have signed it and appointed Benton, Benton knew that the Mexican war would make a president. It made two, Taylor and Pierce."

## Choice of Words.

In legislation the word "war" was carefully avoided. In providing for troops to go to Mexico and paying for them the word "emergency" supplanted that awful word "war." Perhaps the idea was to maintain peace, and as long as we keep out of war the better the country will be satisfied. It seems all right to get involved in an "emergency," but war, never! The avoidance of the word aroused Uncle Joe Cannon. "There is a great deal of talk about an emergency," he said. "Why, you may call a spade a trowel, but that does not make it a trowel. You may say there is no war, but they are fighting down there in Mexico."

## Keeper of the Records.

Congressman Fess of Ohio is the real keeper of the records. From the beginning of the present war he has continued to have published a record of diplomatic correspondence and statements by governments. He has done the same in regard to the affairs in Mexico. All of the official documents have been kept in convenient and chronological form by the painstaking Ohio representative.

## Victory For Ashurst.

It was a virtual victory for Senator Ashurst in his fight against the blue tag extension in the postoffice appropriation bill. He forced in amendments which make it possible for publishers to take their grievances into court if they think they are not getting a fair deal at the postoffice department. Heretofore all such cases have been thrown out on the ground that the postmaster general had discretionary powers in the administration of the postal affairs of the government. The Arizona senator would have won a flat victory but for the amendments offered.

## Booming of the Cannon.

Cannon was booming in the house—Uncle Joe Cannon. The veteran was asserting that there was war in Mexico now, and he wanted it prosecuted with vigor. Garner of Texas interrupted him to ask him if he endorsed the war we were having with Mexico.

"If you want me to say that I endorse the course of our president, Woodrow Wilson, God forbid! Do you?"

"A good deal," replied Garner. "A good deal," the gentleman says, retorted Cannon in a tone that turned the laugh on the Texan.

## The Trouble in Kentucky.

Congressman Thomas of Kentucky does not talk often nor long in the house, but he usually has an audience. He started in against the Republican party the other day with only a few minutes to talk. He wanted to tell the whole world about the Republicans.

"I would like to get out on the stump in some other states," said Thomas. "If it was not for the fact that there are so many Republicans in Kentucky and in my district, I should be ashamed to vote the Republican ticket. You have got Roosevelt on your hands, and you don't know what to do with him. You are simply wandering somnambulist with a vanished dream. You who are for Roosevelt dare not say so because you are afraid Hughes will not give you the offices."

the Good News Spreads

Many housewives have found a happy solution of the breakfast problem in New Post Toasties.

These new corn flakes are distinctive in that they bear a self-developed flavour all their own—the delicate, fascinating flavor of choice, white Indian corn. Unlike other flakes they do not depend on cream and sugar to make them palatable.

Try a handful without cream and sugar—note the fine flavor and new form; also the tiny "bubbles" on each flake. These bubbles are a distinguishing characteristic and are produced by the quick, intense heat of the new process of making, which also brings out the wonderful flavor.

Although the New Post Toasties are a great improvement in flavor and form, they cost, no more than ordinary flakes. Have a package for tomorrow's breakfast.

## At the Best Theatre

Prince Boris (Wm. Desmond) with a party of huzzars makes a raid down the Valley of Bothalia. In a monastery, he sees a nun that attracts him. He discovers that she is Countess Olga (Bessie Barriscale) whose portrait he has seen and admired. While Olga keeps Boris engaged in conversation her brother Michael returns with troops, who capture the huzzar. Boris spurs the woman when he discovers her trickery. Olga finds that Boris is condemned to be shot. She manages to throw him the key to his room. While they are searching the palace, Boris is concealed by Olga. Later Boris is discovered by Michael bidding farewell to Olga. There is a fight with swords. Michael is vanquished by a thrust through the shoulder. Boris escapes. After the war, the father and brother of Olga take her to a monastery, where she is to take the veil as a punishment for aiding in the escaping of Boris. With a royal permission for his marriage to Olga, Boris overcomes the opposition of her relatives and the ceremony takes place in the chapel, where she was to bid farewell to the world.

WILSON OPPOSES  
POLITICAL HERO

Not Likely to Name New Major Generals For Mexico.

IT WOULD AID HIS ENEMIES

Champ Clark Tells How Benton Attempted to Be Elected by Going to the Last Mexican War—Knew That Conflict Would Make a President, and In the End It Made Two.

By ARTHUR W. DUNN.

Washington, July 6.—[Special.]—It is doubtful whether President Wilson will take the step which will create political generals.

It is all very well to talk about Roosevelt raising a division, becoming a major general and going into the war in Mexico, but first he must be appointed a major general, and the appointment must come from Woodrow Wilson. Is it to be expected that the president would appoint Roosevelt in view of what the colonel has said about the manner in which the administration has been conducted? Not if he is the kind of man I think he is.

More than that, Wilson is not likely to make a man like Roosevelt a great big political war hero; not just at this time, when Roosevelt is doing everything possible to elect another man in Wilson's place.

## Tom Benton's Attempt.

This matter of political war heroes started Champ Clark going, and no man is better equipped than he to tell political reminiscences of a personal kind.

"Tom Benton tried to make himself president by becoming the war hero of the last war with Mexico," said the speaker. "He tried to have a bill passed making the senior colonel in the army a lieutenant general, which would have given him command in Mexico, as he was then the senior colonel, although a senator. His opponents were able to defeat his bill by three votes. Polk would have signed it and appointed Benton. Benton knew that the Mexican war would make a president. It made two, Taylor and Pierce."

## Choice of Words.

In legislation the word "war" was carefully avoided. In providing for troops to go to Mexico and paying for them the word "emergency" supplanted that awful word "war." Perhaps the idea was to maintain peace, and as long as we keep out of war the better the country will be satisfied. It seems all right to get involved in an "emergency," but war, never! The avoidance of the word aroused Uncle Joe Cannon. "There is a great deal of talk about an emergency," he said. "Why, you may call a spade a trowel, but that does not make it a trowel. You may say there is no war, but they are fighting down there in Mexico."

## Keeper of the Records.

Congressman Fess of Ohio is the real keeper of the records. From the beginning of the present war he has continued to have published a record of diplomatic correspondence and statements by governments. He has done the same in regard to the affairs in Mexico. All of the official documents have been kept in convenient and chronological form by the painstaking Ohio representative.

## Victory For Ashurst.

It was a virtual victory for Senator Ashurst in his fight against the blue tag extension in the postoffice appropriation bill. He forced in amendments which make it possible for publishers to take their grievances into court if they think they are not getting a fair deal at the postoffice department. Heretofore all such cases have been thrown out on the ground that the postmaster general had discretionary powers in the administration of the postal affairs of the government. The Arizona senator would have won a flat victory but for the amendments offered.

## Booming of the Cannon.

Cannon was booming in the house—Uncle Joe Cannon. The veteran was asserting that there was war in Mexico now, and he wanted it prosecuted with vigor. Garner of Texas interrupted him to ask him if he endorsed the war we were having with Mexico. "If you want me to say that I endorse the course of our president, Woodrow Wilson, God forbid! Do you?"

"A good deal," replied Garner.

"A good deal," the gentleman says, "retorted Cannon in a tone that turned the laugh on the Texan."

## The Trouble in Kentucky.

Congressman Thomas of Kentucky does not talk often nor long in the house, but he usually has an audience. He started in against the Republican party the other day with only a few minutes to talk. He wanted to tell the whole world about the Republicans. "I would like to get out on the stump in some other states," said Thomas. "If it was not for the fact that there are so many Republicans in Kentucky and in my district, I should be ashamed to vote the Republican ticket. You have got Roosevelt on your hands, and you don't know what to do with him. You are simply wandering somnambulist with a vanished dream. You who are for Roosevelt dare not say so because you are afraid Hughes will not give you the offices."

## "New Post Toasties"

From House to House  
the Good News Spreads

Many housewives have found a happy solution of the breakfast problem in New Post Toasties.

These new corn flakes are distinctive in that they bear a self-developed flavour all their own—the delicate, fascinating flavor of choice, white Indian corn. Unlike other flakes they do not depend on cream and sugar to make them palatable.

Try a handful without cream and sugar—note the fine flavor and new form; also the tiny "bubbles" on each flake. These bubbles are a distinguishing characteristic and are produced by the quick, intense heat of the new process of making, which also brings out the wonderful flavor.

Although the New Post Toasties are a great improvement in flavor and form, they cost no more than ordinary flakes. Have a package for tomorrow's breakfast.

English Speaking  
Americans Insulted

BY WILBUR S. FORREST  
(United Press Staff Correspondent.)  
London, July 5—Americans are decidedly persona non grata in Vienna. English are detested as much by the Viennese as they are by the Germans, according to an American just returned from the Austrian capital. Americans are hated because they speak English.

"We hate everything English," said two Austrian officers to me," added the American. "I happened to be in a cafe near Graben with some attaches from the American embassy, and, as was quite natural, I was speaking English with them. The officers repeated their remark, whereupon I wrote on my card that I was an American, and offered it to them. They declined to take my card and asserted more loudly than before that they did not care whether we were English or Americans. Everyone in the cafe got excited, stood up and yelled at us, 'Out with you! Get out! Throw them out!' We defied the two officers to give us their cards, which they refused. We threw down our cards on their table and left. Another day, having said a few words in English over the telephone in a cafe, I was insulted as I left the telephone cabin by a man who said 'We want no English here,' to which I replied, 'And we wouldn't want you in the state.'"

According to this American, all Viennese shops prominently display postcards, boxes of matches and badges of all varieties, with the motto inscribed, "God Punish England." The Viennese are of the opinion that the war is all over but the shouting, with the Central Empires on top. They crowd about the cafes daily, listen to the gipsy bands and drink to the health of the army.

"Though only women, children and old men remain as civilians they look upon the daily rations of bread, meat, sugar and other necessities of life as a military necessity which will soon fade away when the Central Empires deem it prudent to make peace. Scattered throughout Vienna are numerous government depots for the reception of brass, copper and other metals. The windows are placarded with posters three feet high, with a picture of a big howitzer firing an enormous shell, and under it the inscription: 'Your government needs copper for these shells.' The people have given practically all the copper they possess but have received a good price from the government for it.

350,000 Acres  
of Land Raffle

(By United Press)  
Spokane, Wash., July 5—Land offices were thrown open today for those who want to participate in one of Uncle Sam's last great land-rafts. Approximately 350,000 acres, comprising the south half of the Colville Indian reservation, will be divided into 160 acre ranches and turned over to settlers who hold the lucky numbers after the drawing July 27. Registration books opened today in Spokane, Wenatchee, Wilbur, Republic, Omak and Colville, Wash. They will close July 22, and a week later the lucky numbers will be drawn out, entitling the holder to a choice of 160 acre tracts.

The Colville reservation is less than 50 miles from Spokane. It extends from the Columbia river on the east and south to the Okanogan river on the west. It is about 70 miles east and west, and 40 miles north and south.

The elevation varies from 1000 to 5000 feet.

Stock raising will probably become the greatest industry of the land thrown open to entry.

Negro Race Needs  
Vocational Training

(By United Press)  
New York, July 5—Preparedness for war and peace, the education of negroes and alien population are the key notes of today's session of the National Education association here. G. Stanley Hall, president of Clark University, Worcester, Massachusetts, addressed the association on "The Present War and Education." He declared that the training which best fits for efficiency in times of peace should be emphasized in our programs of education. Fanny Fern Andrews, secretary of the American school peace league, Boston, advocated peace with honor at any price. She declared: "Nothing is more conspicuous in the present war than the sensitiveness of the belligerents to the charges of violations of treaties and the established law of nations. The combined action of modern powers represented generally by the head conferences has developed this sense of responsibility—a great step in world progress. On those who administer education in this critical time rests the responsibility of preserving and advancing those ideals for which all civilized nations are striving, and especially have the teachers of this nation an important part to play."

Hollis B. Frissell, principal of the Hampton Normal and Industrial Institute, Hampton, Virginia, spoke on "The Education of the Negro" in which he especially emphasized the need of specific vocational training as the secret of educating the negro race. "The Education of the Alien" was discussed by John H. Finley of New York, state commissioner of education. Dr. Finley advocated the teaching of languages, efficiency in trades and occupations, better home conditions, and the emphasis of the highest American ideals. Homer H. Seerley, president of the Iowa State Teachers College of Cedar Falls, advocated national aid for all forms of vocational education. Other associations meeting today with the National Education association are: American school hygiene association; federation of state teachers association; the league of teachers associations; the American home economics association; the national council of the teachers of English and the American posture league. Eight hundred leading educators of the association were guests at the luncheon given at the Waldorf Astoria in honor of David B. Johnson, president of the association, by the department of school administration.

THE WAY TO SUCCESS.

It is the man who carefully pegg his way up step by step, with his mind becoming wider and wider and progressively better able to grasp any situation, persevering in what he knows to be practical and concentrating his thought upon it, who is bound to succeed in the greatest degree.—Alexander Graham Bell.

How America's largest cigarette manufacturer has accomplished "the Impossible" by producing a MILD cigarette that SATISFIES. It is the CHESTERFIELD Cigarette : : : : : : :

ALMOST anybody can make a cup of coffee. But there are said to be not over a half-dozen restaurants in the United States where they know how to make it right.

Similarly, almost anyone can make a cigarette. Just roll up some tobacco in a piece of pure paper—and there you are.

There are, perhaps, over 800 brands of cigarettes sold in this country today. But not one of them does what Chesterfields do—for Chesterfields are MILD; and yet they SATISFY.

Some cigarettes may be mild, but they don't satisfy. Only one cigarette does BOTH—Chesterfield!

This truly unique cigarette has all of that refreshing taste-delicacy (or mildness) which any good cigarette must have. Yet, without sacrificing any of this delightful mildness, Chesterfields go one step further—they do more than merely "please your taste"—they let you know you've been smoking. They satisfy!

And yet they're mild!

A Step Forward  
in Cigarette-Making

WE are proud to be the firm that has brought about this important new development in cigarette enjoyment—for that is exactly what the Chesterfield blend is.

This cigarette is an outgrowth of long, earnest effort on the part of this, the largest cigarette manufacturing concern in the United States.

The mild, yet satisfying Chesterfield blend is not the result of happy chance. It is one of the results of our many years of cigarette experience—of the heavy volume of our purchases of cigarette tobacco—of the prestige and advantage these enormous purchases give us in securing the choicest leaf from the tobacco fields of the world.

Chesterfields are an achievement.

A New Thing  
for a Cigarette to Do

CHESTERFIELDS do the one thing you have always wished a cigarette would do—they satisfy!

Smoke them and we believe you will find that ordinary cigarettes seem by comparison almost flat.

Give Chesterfields (20 for 10 cents) a trial. We believe you will be glad to learn what they can teach you about cigarette enjoyment.

\* \* \*

You have been reading here some rather unusual, almost daring, statements about a cigarette. If Chesterfields were an untried cigarette—if we had not been observing their behavior in other cities—if we did not KNOW that they make good with smokers, we could not afford to make these statements to you over our signature.

But these statements, strong as they are, can mean little or nothing to you until you have actually smoked your first Chesterfield.

You will find that your own dealer has Chesterfields waiting for you.

THE WAY TO SUCCESS.

It is the man who carefully pags his way up step by step, with his mind becoming wider and wider and progressively better able to grasp any situation, persevering in what he knows to be practical and concentrating his thought upon it, who is bound to succeed in the greatest degree.—Alexander Graham Bell.

Well Children are Active

If your child is dull, pale, fretful and wants to lie around, the chances are it is suffering from worms. Kickapoo Worm Killer, a pleasant candy confection, liked by all children is what your child needs. You only give one-half to one lozenge at a time and you get immediate results. Every mother should have a box on hand. 25c at all druggists.—Advt. tta

How America's largest cigarette manufacturer has accomplished "the Impossible" by producing a MILD cigarette that SATISFIES. It is the CHESTERFIELD Cigarette : : : : : : :

ALMOST anybody can make a cup of coffee. But there are said to be not over a half-dozen restaurants in the United States where they know how to make it right.

Similarly, almost anyone can make a cigarette. Just roll up some tobacco in a piece of pure paper—and there you are.

There are, perhaps, over 800 brands of cigarettes sold in this country today. But not one of them does what Chesterfields do—for Chesterfields are MILD; and yet they SATISFY.

Some cigarettes may be mild, but they don't satisfy. Only one cigarette does BOTH—Chesterfield!

This truly unique cigarette has all of that refreshing taste-delicacy (or mildness) which any good cigarette must have. Yet, without sacrificing any of this delightful mildness, Chesterfields go one step further—they do more than merely "please your taste"—they let you know you've been smoking. They satisfy!

And yet they're mild!

A Step Forward  
in Cigarette-Making

WE are proud to be the firm that has brought about this important new development in cigarette enjoyment—for that is exactly what the Chesterfield blend is.

This cigarette is an outgrowth of long, earnest effort on the part of this, the largest cigarette manufacturing concern in the United States.

The mild, yet satisfying Chesterfield blend is not the result of happy chance. It is one of the results of our many years of cigarette experience—of the heavy volume of our purchases of cigarette tobacco—of the prestige and advantage these enormous purchases give us in securing the choicest leaf from the tobacco fields of the world.

Chesterfields are an achievement.

A New Thing  
for a Cigarette to Do

CHESTERFIELDS do the one thing you have always wished a cigarette would do—they satisfy!

Smoke them and we believe you will find that ordinary cigarettes seem by comparison almost flat.

Give Chesterfields (20 for 10 cents) a trial. We believe you will be glad to learn what they can teach you about cigarette enjoyment.

★ ★ ★

You have been reading here some rather unusual, almost daring, statements about a cigarette. If Chesterfields were an untried cigarette—if we had not been observing their behavior in other cities—if we did not KNOW that they make good with smokers, we could not afford to make these statements to you over our signature.

But these statements, strong as they are, can mean little or nothing to you until you have actually smoked your first Chesterfield.

You will find that your own dealer has Chesterfields waiting for you.

## BEN ARNOLD DROWNED IN LAKE

Meets Death at Clark Lake Near Hubert Wednesday Afternoon While Trying to Save Girl

## BOTH SANK IN THE WATERS

Miss Hulda Krueger is Rescued. While Young Arnold Met Death. Lungmotor Used to Save Him

Ben Arnold, single, age 26, son of Mrs. M. Arnold, met death by drowning in the waters of Clark lake at Hubert, directly in front of the H. W. Linnemann cottage.

Arnold gave his life to save that of another. Miss Hulda Krueger, employed at the Linnemann cottage, had ventured to swim after practicing with water wings, it is said, and ventured beyond her depth. In her struggles to save herself she clutched a young girl and the latter freed herself.

Arnold leaped in to save Miss Krueger and both sank. Boats were hurriedly sent to the spot and the girl was brought to the surface and revived. Arnold's body was found in water 8 to 12 feet deep and was quickly brought to shore. It is said he had been under water three or four minutes.

Workers endeavored to resuscitate him. Dr. C. S. Reimstad, who had been at Nisewa to attend Judge J. T. Sanborn, was called and did everything possible to save the young man.

A call was sent for the lungmotor at Brainerd and A. A. Arnold and C. E. Hansing left in an automobile and arrived there with the machine which was applied without success.

The body was brought to Brainerd on the night train. Mr. Arnold was born in Brainerd, graduated from the high school and later attended the University of Minnesota, graduating from the law department. He had been clerking in the Arnold store a short time, awaiting a chance to establish himself in law practice.

He is survived by his mother, by three sisters, Rose and Lena, and Mrs. E. O. Webb, and two brothers, Will, with the Northern Pacific railway company at St. Paul and Alvin Arnold of Brainerd. He attended the Christian Science church.

The sympathy of the community is extended the bereaved family.

Funeral arrangements were concluded this afternoon. The services will be held at the home of Mrs. M. Arnold, 223 Northeast Fourth avenue, at 3 o'clock Friday afternoon. Charles H. Cooper, reader of the Christian Science church, officiating.

## NOW FOR CHANCE TO RECIPROCATE

Brainerd in the past has visited Little Falls in special trains and special coaches. The Princess of the Orient went in a five coach special.

The Little Falls game on the Fourth was attended by over 900 Brainerd people.

The "Little Falls Transcript" in a recent issue pleaded for a community spirit and wanted Brainerd people to attend their Chautauqua.

Brainerd, which spent some \$2,000 or more in Little Falls on the Fourth, would like to see that community spirit exemplified by Little Falls. They have a chance to attend the Brainerd-Little Falls game in Brainerd July 16. That will show whether Little Falls believe in reciprocity and whether it shows some sense of appreciation of the money made from the Brainerd crowd. Accurate count will be kept of every Little Falls man seeing that game and of how many stay over for supper.

## CUYUNA

Cuyuna, Minn., July 6—Frank Buchanan was at Brainerd on business.

Miss Agnes Berthaume of Deerwood, visited in Cuyuna.

Maurice Levant was called to the front, being a member of a militia company.

Carl Bergstrom spent the Fourth in Little Falls.

Rev. Swanson conducted services in the Presbyterian church.

A determined effort is to be made in Cuyuna to enforce the herd law and prevent the running at large of horses and cattle.

## COMMUNITY PICNIC PLANS

Picnic Tables, Benches and Bower at Lum Park, July 13th

## CHAMBER COMMERCE ASSISTS

Ex-Gov. S. R. VanSant Will Deliver Address to the Farmers

## TO THE FARMERS OF CROW WING COUNTY

Every farmer in Crow Wing county is cordially invited to spend the Thirtieth of July in Brainerd and Lum park at the Second Annual Community Picnic, given under the auspices of the Federation of Farmers Clubs of Crow Wing county. The Chamber of Commerce of Brainerd who are assisting the Federation in arrangements, welcome every man, woman and child in the county. Lay aside your work and worries for this day and join with your neighbors getting together with your brother farmers from other parts of the county. You will be entertained royally. Bring your basket lunch and spend the day at Lum park on Rice lake.

Arrangements for the second annual Community picnic are progressing nicely. Every committee having charge of certain details report that all arrangements will be made so as to avoid any unnecessary delay to make the program set for the day. Commencing the early part of next week, a bower, similar to that erected at Day Lake last year, will be erected at the upper end of the park together with picnic tables and park benches so as to accommodate the largest crowd ever assembled at one time to lunch together. Immediately after the basket lunch, a program of music will be carried out after which the speaker of the day, Ex-Gov. Samuel R. VanSant will speak to the farmers and G. A. R. veterans and ladies of the Woman's Relief Corps. Following the speaker a lengthy program of athletic contests will be pulled off and to date, word has been received that different sections of the county already are practicing for the tug-of-war which will be the hardest contest of the day.

The Park Region Encampment are making elaborate arrangements also to entertain the many visitors attending. In the evening at the Chamber of Commerce club rooms a camp-fire will be held at which Hon. S. R. VanSant will speak.

All in all, Brainerd is striving to do itself proud on this day and with every farmer in the county in attendance, the committees in charge will have nothing to regret.

## STAPLES HERE NEXT SUNDAY

Brainerd Lineup Will be Strengthened by the Addition of Russ, a Good Hitter

## ANDERSON, STAPLES TWIRLER

Cook Has Not Announced Battery. Either Victor or Noel May be on the Mound

The baseball attraction for Sunday will be Staples vs Brainerd and, as the Staples team beat Little Falls last week, a great game is assured. The Brainerd lineup, however, will be strengthened by the addition of Russ, who was unable to play on the 4th, and this addition will give Brainerd the added batting strength, and Staples will face a stronger team than appeared on the field this week at Little Falls.

The Staples fans will be here strong and are coming prepared to back their team both with noise and money. They have great faith in their star twirler Anderson, who has won all his games so far this season by very small scores, and are willing to back their team to the limit.

Cook has not announced his pitcher for the game as yet but either Victor or Noel can be depended upon to hold their opponents to a small score. Both men are in great shape and the balance of the team are ready and at for another hard-fought battle, but promise to come out on the big end of the score. The official lineup will be announced Saturday night.

## NEW CIRCUS DIFFERENT

Wheeler Bros, Well Known East and South, Makes First Tour in This Section

No glittering generalities are used in announcing the coming of Wheeler Bros. shows due to reach here July 19, for not only an itemized parade list is published, showing that the onlookers are invited to see, but in every notice this show mentions real facts; what is to be given in the circus program. This is quite an innovation in saw-dust publicity, and that it is a wise move must be profitable, as these circus owners are quoted high up in the financial realm. It is an old show at that, for many years favorably known in the east and south as "the ladies and children's circus," and where it has gained a high standing as the cleanest and highest grade canvas exhibition ever seen in that territory.

It is a brand new three ring show in this section of the country, but desirous of extending its tours and opening up new fields, it has decided to appear here for further public approval, sure and certain to gain new friends in these parts, for if the management was afraid of its reception or of not sufficient merit to appeal to a strange public, it would not waste the money in a vain endeavor to promote new lands.

Brainerd, which spent some \$3,000 or more in Little Falls on the Fourth, would like to see that community spirit exemplified by Little Falls. They have a chance to attend the Brainerd-Little Falls game in Brainerd July 16. That will show whether Little Falls believe in reciprocity and whether it shows some sense of appreciation of the money made from the Brainerd crowd. The baseball attraction for Sunday will be Staples vs Brainerd and, as the Staples team beat Little Falls last week, a great game is assured.

The Brainerd lineup, however, will be strengthened by the addition of Russ, who was unable to play on the 4th, and this addition will give Brainerd the added batting strength, and Staples will face a stronger team than appeared on the field this week at Little Falls.

The Staples fans will be here strong and are coming prepared to back their team both with noise and money. They have great faith in their star twirler Anderson, who has won all his games so far this season by very small scores, and are willing to back their team to the limit.

Cook has not announced his pitcher for the game as yet but either Victor or Noel can be depended upon to hold their opponents to a small score. Both men are in great shape and the balance of the team are ready and at for another hard-fought battle, but promise to come out on the big end of the score. The official lineup will be announced Saturday night.

## NEW CIRCUS DIFFERENT

Wheeler Bros, Well Known East and South, Makes First Tour in This Section

No glittering generalities are used in announcing the coming of Wheeler Bros. shows due to reach here July 19, for not only an intended parade but is published, showing that the onlookers are invited to see, but in every notice this show mentions real facts; what is to be given in the circus program. This is quite an innovation in saw-dust publicity, and that it is a wise move must be profitable, as these circus owners are quoted high up in the financial realm.

It is an old show at that, for many years favorably known in the east and south as "the ladies and children's circus," and where it has gained a high standing as the cleanest and highest grade canvas exhibition ever seen in that territory.

It is a brand new three ring show in this section of the country, but desirous of extending its tours and opening up new fields, it has decided to appear here for further public approval, sure and certain to gain new friends in these parts, for if the management was afraid of its reception or of not sufficient merit to appeal to a strange public, it would not waste the money in a vain endeavor to promote new lands.

To Clean Paint Brushes.  
No matter how hard a paint brush has become, it can be made as soft and clean as new, says R. A. Gallieher in Farm and Home, by simply boiling in water into which has been put a little lye. A little washing powder or soap will do, but it will take longer.  
The brush should be placed on end, and the boiling water should be no deeper than the length of the bristles, as the boiling suds will injure the handle. Turpentine will clean paint brushes, but not after they have become real hard.

GERMAN LINE IMPREGNABLE

Military Expert of the Tageblatt Asserts Defensive Works Have Been Carefully Constructed and That Trenches Cannot Be Expelled From Belgium and France.

Berlin, July 6.—In view of the fact that the initial attack of every offensive is hardest to withstand owing to the unavoidable effect of surprise with superior masses of troops and accumulated ammunition, the military critics here are unanimous in considering that the great offensive in the West has made a showing which can not encourage Germany's opponents. Major Morant, in the Tageblatt, calls the Anglo-French successes "very scanty."

"The critical moment for the success of a great attempt to break a line is the time between the beginning of the enemy infantry attacks and the counter attacks which the defenders are able to make after concentrating their forces," he writes. "The enemy's success in the four days' offensive, from this viewpoint, is very small."

"The enemy succeeded in overrunning the demolished German first trenches in several places with heavy forces. The resistance could not be great because little except dead remained in the blown up trenches."

"Where the Germans stood on the defensive stubborn fighting occurred and, as the enemy reports, the Germans fought obstinately to the last man."

Germans Embarrass Enemy.

"At other points the German leaders, with cool deliberation and with troops well in hand, bent back elastically. This counter tactic involved the enemy in embarrassment. As he was unable to impart the finishing stroke to the defenders with the first fire, he had to begin a new with artillery preparation or attack the unweakened defenders as an alternative. The reports of the offensive must prove directly discouraging to the attacking forces."

"Paris heard the cannon thunder as in 1914. For, let it again be said, that the operative efficiency of the attacking British army is inadequate to break all our rows of lines, which have been most thoroughly constructed, and expel us from France and Belgium."

The Morning Post critic says that the latest reports show that the British and French are gaining no ground but that the central powers have made gains in Volhynia and south of the Dniester.

DEMOCRATS LAUNCH FIGHT FOR SENATE

Washington, July 6.—Vance McCormick, chairman of the Democratic national committee, discussed with Democratic senators the part the committee will take in the fight to retain control of the senate. Senator Saulsbury of Delaware was selected tentatively to take charge of that feature of the campaign. Senator Walsh of Montana and possibly other senators are expected to be selected by Mr. McCormick as members of the campaign committee. This is the first presidential election in which one-third of the membership of the senate is up for election by popular vote.

SHOOTS HIMSELF IN JAIL

Prisoner at Billings Believed to Have Secreted Revolver in Bedding.

Billings, Mont., July 6.—John Covinsky, presumably a laboring man, committed suicide in a cell in the city jail. How he smuggled the revolver into his cell is a mystery, but the police believe it was enclosed in a roll of bedding which he was permitted to take with him while he was being held as a witness against a man charged with "rolling" him for \$2. No cause is assigned for the deed.

Robs Four Stage Coaches.

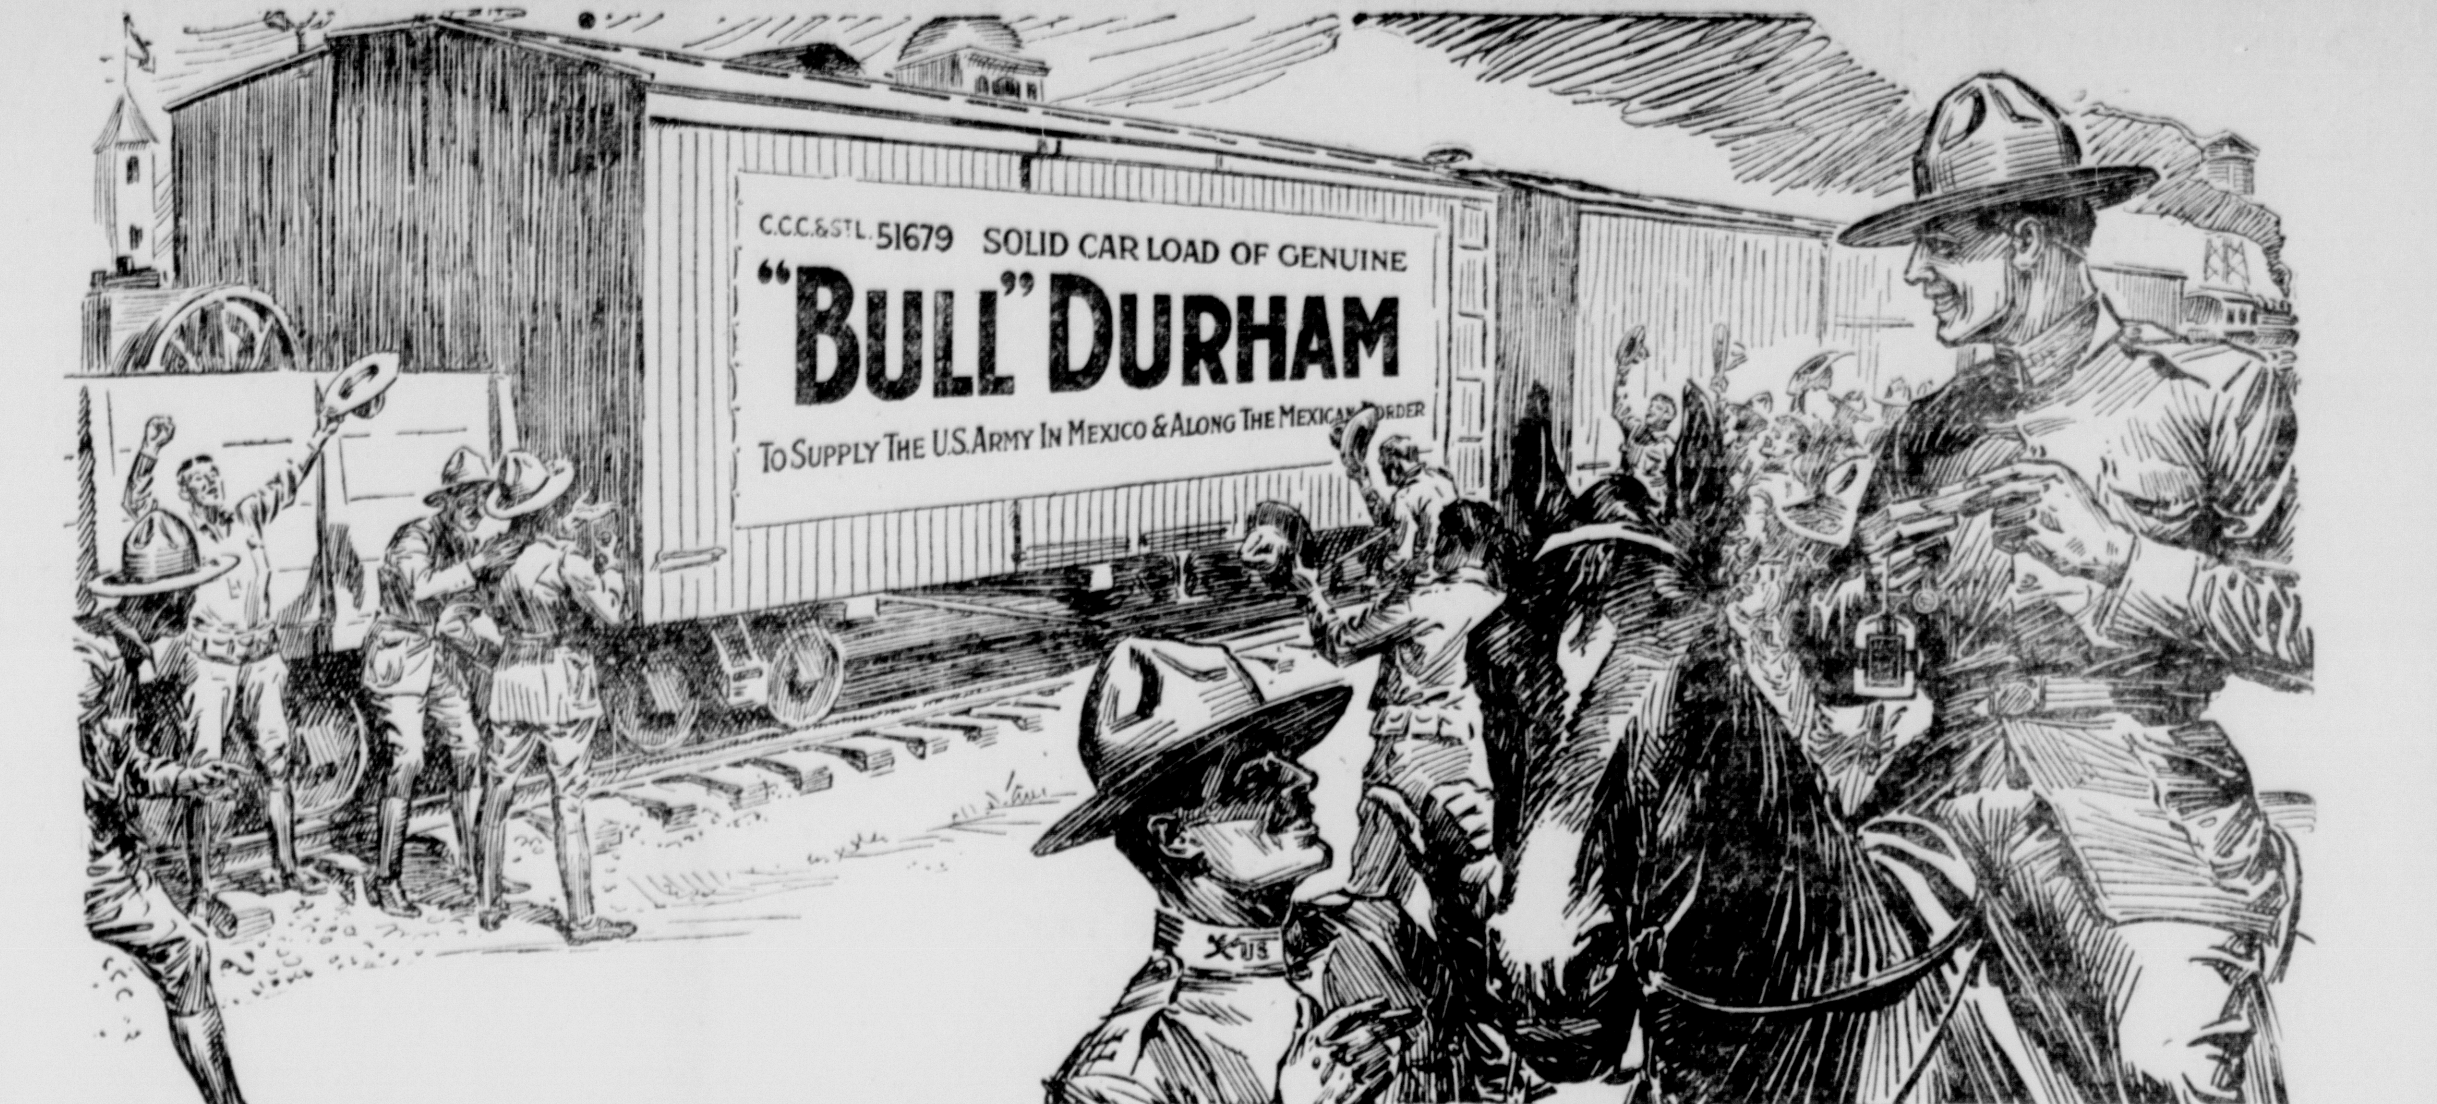

Yosemite Valley, Cal., July 6.—A bandit, single handed, held up four stages at Wawona, just outside of the Yosemite valley national park, and from more than a score of persons collected \$100 in cash and an assortment of jewelry.

Lead and Zinc Increase.

Washington, July 6.—Preliminary figures compiled by the geological survey indicate the country's production of lead and zinc ores the first half of 1916 far exceeded that of any previous six months.

Imprisoned by Her Tongue.  
In translating the Bible for the Zulus and for some other aboriginal peoples it is necessary to have two versions, one for the women and one for the men. The Zulu law compels a married woman to cut herself off from her father-in-law and all her husband's male relations. She is not allowed to pronounce their names even mentally. As a result, there is a distinct dialect among Zulu women.—Christian Herald.

No Rest For Mamma.  
As bedtime comes and curtains fall my irksome cares seem put to rout, as, worn and weary into bed I crawl from my household duties tired out. But, as snug between the sheets I lie, and heavy lids have ceased to wink—from baby's crib there comes a cry—"Mamma, please det me a dwink."—Indianapolis Star.

Every One Was Satisfied.  
A very angry client entered a New York lawyer's office. He had called upon a debtor and asked him politely to pay a bill of \$2.50 and had been abused for his pains. Now he wanted the lawyer to collect it.  
The lawyer demurred. The bill was so small that it would cost the whole amount to collect it.  
"No matter," said the angry one. "I don't care if I don't get a cent as long as that fellow has to pay it!"  
So the lawyer wrote the debtor a letter, and in a day or two the latter appeared in high dudgeon. He did not owe any \$2.50, and he would not pay.  
"Very well," said the lawyer; "then my instructions are to sue. But I should hardly think it would pay you to stand a suit for so small a sum."  
"Who will get the money if I pay it?" asked the man.  
The lawyer was obliged to confess that he should.  
"Very well," said the debtor; "that's another matter. If Smith isn't going to get it I am perfectly willing to pay it."—Youth's Companion.

To Clean Jewelry.  
Gold rings, brooches and other articles of jewelry that are set with precious stones can be cleaned with warm water, white soap and a very little ammonia. Use a soft old toothbrush to get in between the setting and the stone. For rings set with turquoises and pearls the water cleansing should be avoided, but for the hard, transparent gems it is allowed. Polish the rings and pins with a soft chamois and they will be wonderfully bright and sparkling.

Too Large an Order.

### Imprisoned by Her Tongue.

In translating the Bible for the Zulus and for some other aboriginal peoples it is necessary to have two versions, one for the women and one for the men. The Zulu law compels a married woman to cut herself off from her father-in-law and all her husband's male relations. She is not allowed to pronounce their names even mentally. As a result, there is a distinct dialect among Zulu women.—Christian Herald.

### Earthquake Regions.

The most shaken countries of the world are Italy, Japan, the Pacific slope of South America, Java, Sicily and Asia Minor. The lands most free from earthquakes are Russia, Canada, Scandinavia and Africa. The United States and Australia are to a large extent unshaken by earthquakes save on the Pacific (in the United States) and in a few localities in the island continent.—New York American.

### The Difficulty.

"My wife's mad with me and has gone on a hunger strike." "Then let her go hungry till she comes to her senses. Why should you worry?" "Because I'm the one that's going hungry."—Baltimore American.

### Accomplished.

Randall—After twenty-five years of married life she loves her husband as much as ever. Rogers—Yes, and she annoys him in other ways, too.—L.A.E.

### No Rest For Mamma.

As bedtime comes and curtains fall my lksome cares seem put to rout, as worn and weary into bed I crawl from my household duties tired out. But, as snug between the sheets I lie, and heavy lids have ceased to wink—from baby's crib there comes a cry, "Mamma, please det me a dwink."—Indianapolis Star.

### Every One Was Satisfied.

A very angry client entered a New York lawyer's office. He had called upon a debtor and asked him politely to pay a bill of \$250 and had been abused for his pains. Now he wanted the lawyer to collect it.

The lawyer demurred. The bill was so small that it would cost the whole amount to collect it.

"No matter," said the angry one. "I don't care if I don't get a cent as long as that fellow has to pay it!"

So the lawyer wrote the debtor a letter, and in a day or two the latter appeared in high dudgeon. He did not owe any \$250, and he would not pay.

"Very well," said the lawyer; "then my instructions are to sue. But I should hardly think it would pay you to stand a suit for so small a sum."

"Who will get the money if I pay it?" asked the man.

The lawyer was obliged to confess that he should.

"Very well," said the debtor; "that's another matter. If Smith isn't going to get it I am perfectly willing to pay it!"—Youth's Companion.

### To Clean Jewelry.

Gold rings, brooches and other articles of jewelry that are set with precious stones can be cleaned with warm water, white soap and a very little ammonia. Use a soft old toothbrush to get in between the setting and the stone. For rings set with turquoises and pearls the water cleansing should be avoided, but for the hard, transparent gems it is allowed. Polish the rings and pins with a soft chamois and they will be wonderfully bright and sparkling.

### Too Large an Order.

He—When we were married you swore to love, honor and obey. She—I know I did, but at that time I didn't realize I was attempting the impossible.—Richmond Times Dispatch.
